EDUCATION

SUNY New Paltz, New Paltz, NY — *BS in Computer Science*
August 2015 - December 2019

Relevant coursework: Computer Science I – Computer Science III, Object Oriented Programming, Assembly Language, Calculus I – II, Web Programming, Language Processing, Software Engineering, Operating Systems.

PROJECTS

Computer Science Dept. Job Finder Site — *Academic Project*

Added to a website in development by the computer science department at New Paltz using HTML, CSS, JavaScript, PHP, and MySQL. Specifically worked on submitting information through a specific web page, storing information in separate text files, and displaying information using PHP, and MySQL.

dwaynerivera.com — *Portfolio Site*
Created and designed my own portfolio website using HTML, CSS, JavaScript, and React. I styled the website using React Bootstrap, as well as the CSS grid display.

Personal Blog — *Blog Site*
Currently creating and designing a personal blog website for a client using HTML, CSS, React, MySQL, and PHP. I'm using the first three to stylize the site, and MySQL and PHP in order to handle submission of the blogs, as well as the ability to edit the blogs as the admin pleases.

EXPERIENCE

Print and Mail Services, New Paltz, NY — *Assistant*
January 2016 - December 2019

Kept day to day operations running smoothly by providing efficient service to those receiving packages. Improved the rate our office was able to complete tasks by working quickly and carefully on my assignments.

New York City Transit, New York, NY — *Intern*
July 2018 - August 2018

At New York City Transit, I was able to help improve the day to day workflow by editing Visual Basic for Access programs, making the codes cleaner and more efficient. I also organized and backed up the multiple databases, whether they were physical or digital copies.

West Midtown Medical Group, New York, NY — *Receptionist*
June 2016 - January 2017

Worked independently to ensure the flow of patients was manageable for nurses, as well as keep patient databases up to date daily. I also helped other staff members with various tasks.

SKILLS

Java

Python

HTML

CSS

JavaScript

React

Bootstrap

Extracurricular

National Society of Black Engineers: As a member, worked with the e-board in meetings, as well as developed interpersonal and professional skills.

Student Association Senator: I was an elected member of SUNY New Paltz's student senate. As a senator, I helped improve relations between university police and the student body by hosting programs involving both parties.
